KLIMAFLEX TEST PORT

THE LATEST IN HVAC TESTING

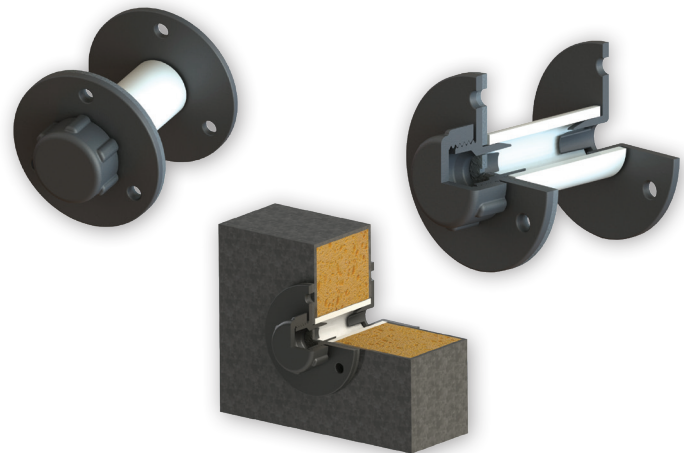

WORLDWIDE ACCESS EXPERTS

You can't go wrong with KLIMAFLEX™ HVAC components. Each offers industry-leading quality, durability and performance. But if you want to dial-in the performance, fit and functionality of your complete access system, talk to us first. We'll assess the intended applications and make recommendations that best suit your needs. Because when you choose Allegis, you're not just buying access components. You're buying access to the best people in access components.

INSULATED DOOR TEST PORT

The Allegis test port allows easy, economical, resealable access to the air stream within an HVAC unit, for temperature or air flow measurement. The part is infinitely adjustable to varying door thicknesses and insulation styles. The sealing gasket prevents moisture or air from entering the unit. The glass reinforced nylon is UV stable and approved for contact with the conditioned air.

SPECIFICATIONS

KLIMAFLEX™ is the industry leader, offering a variety of components that provide durability and performance.

- Made for insulated, two panel doors
- Plastic material provides a thermal break
- Gasketed to prevent leaks
- Easy open / easy close cap
- Variable length tubing means the port does not depend on door thickness
- Made of PA6 GF30 w/ PVC tubing cut to length
- Low profile
