

PRODUCT INTRODUCTION:

SURFACE MOUNT LATCHING

THE NEWEST K2 LATCHING SYSTEMS FROM KLIMAFLEX™

WORLDWIDE ACCESS EXPERTS

You can't go wrong with KLIMA-FLEX HVAC components. Each offers industry-leading quality, durability and performance. Klimaflex makes handles, latches, hinges, and accessories for insulated doors used in HVAC and refrigeration. If you want to dial-in the performance, fit and functionality of your complete access system, talk to us first. We'll assess the intended application and make recommendations that best suit your needs. Because when you choose Allegis, you're not just buying access components. You're buying access to the best people in access components.

SURFACE MOUNTED LATCH FOR OUT-SWING DOORS

The new surface mount latch allows the use of the various K2 handles; key-locking, tool locking, and pad-locking. Roller wheels add support and create a detent and a tactile feel for the operation. Surface mounting eliminates the need to penetrate the inner door skin, and will mount on any door thickness. The latching unit includes the surface mount base and striker (handle not included).

SPECIFICATIONS

KLIMAFLEX™ is the industry leader, offering a variety of components that provide durability and performance.

- Surface mount base made of black PA6 (Glass Reinforced Nylon)
- Zinc die-cast striker
- Handle not included
- Use with **Klima-Flex™** K2 handles
